GENERAL PROVISIONS

§ 3280.2. Purpose.

The purpose of this chapter is to provide standards to aid in protecting the health, safety and rights of children and to reduce risks to children in group child day care homes. This chapter identifies the minimum level of compliance necessary to obtain the Department's certificate of compliance.

Notes of Decisions

Protection of Children Paramount

To sacrifice the safeguards provided by these regulations solely on the basis of the Department of Public Welfare's procedural error in delaying to schedule a hearing on the day care provider's appeal would serve only to penalize the children. Dismissal on procedural grounds, where judicial review establishes that the provider suffered no prejudice and that the finding of gross incompetence, negligence and misconduct was, in fact, supported by substantial evidence, would visit an injustice upon the very party these regulations were intended to protect. *Winston v. Department of Public Welfare*, 675 A.2d 372 (Pa. Cmwlth. 1996).

STAFF-CHILD RATIO

§ 3280.51. Maximum number of children.

No more than 12 children unrelated to the operator may simultaneously receive care except in a facility

serving older school-age children. In a facility serving only older school-age children, a certificate of compliance may be issued for up to 15 children unrelated to the operator.

Notes of Decisions

Illustrative Cases

The facility exceeded the maximum allowable capacity for a group child day care home by almost 50 percent. This conduct did, indeed, amount to gross incompetence, negligence or misconduct. *Winston v. Department of Public Welfare*, 675 A.2d 372 (Pa. Cmwlth. 1996).

§ 3280.52. Ratio requirements.

(a) The minimum number of facility persons is as follows:

(1) A primary staff person shall be present in a facility when six or fewer children are in care, unless the staff-child ratio specified in subsection (b) or (c) requires a second or third staff person.

(2) At least two facility persons shall accompany any number of children on an excursion away from a facility.

(b) When children are grouped in similar age levels, the following child group sizes and ratios of staff persons apply:

	<i>Staff</i>	<i>Children</i>	<i>Maximum Group Size</i>	<i>Total Number of Staff Required for the Maximum Group Size</i>
Infant	1	4	12	3
Young toddler	1	5	12	3
Older toddler	1	6	12	2
Preschool	1	10	12	2
Young school-age	1	12	12	1
Older school-age	1	15	15	1

(c) When children are grouped in mixed age levels, the following child group sizes and ratios of staff persons apply:

	<i>Staff</i>	<i>Children</i>	<i>Maximum Group Size</i>	<i>Total Number of Staff Required for the Maximum Group Size</i>
--	--------------	-----------------	-------------------------------	--

	<i>Group size</i>			
Infant/young or older toddler	1	4	12	3
Young toddler/older toddler	1	5	12	3
Older toddler/preschool	1	6	12	2
Preschool/young school-age	1	10	12	2
Young school-age/older school-age	1	12	12	1

Notes of Decisions

Insufficient Supervision

Thirteen infants and toddlers, some not old enough to sit up, were left alone on the first floor of the provider's facility with no adult supervision whatsoever. This regulation requires at least three staff persons supervising a group of twelve infants and toddlers at all times; therefore, the facility's supervisory staff was woefully inadequate for such a large group of children. *Winston v. Department of Public Welfare*, 675 A.2d 372 (Pa. Cmwlth. 1996).

§ 3280.61a. Overpopulation of indoor child care space—statement of policy.

(a) This policy regarding enforcement of the requirements of § § 3270.61(c) and 3280.61(c) (relating to measurement and use of indoor child care space) is the Department’s effort to afford flexibility regarding the use of indoor child care space in a child day care center and a group day care home located in any premises. The Department will not cite a facility for noncompliance with § § 3270.61(c) and 3280.61(c) if an indoor child care space is overpopulated during program time if the following conditions are met:

(1) The overpopulation for purposes of program activity is limited to two time periods daily not exceeding 1/2 hour in each period.

(2) The time of overpopulation is designated on the facility’s schedule of daily activities.

(3) The space is not occupied by children of the infant or young toddler age levels during the time permitted for overpopulation.

(4) The number of children present in the overpopulated space is not more than twice the measured capacity of the space.

(b) When a facility serves meals in a space designated and measured as indoor child care space, the Department will not cite the facility for noncompliance with § § 3270.61(c) and 3280.61(c) when the space is overpopulated during lunch time if the following guidelines are observed:

(1) The overpopulation for lunch time is limited to times when children are eating and for a maximum of 1 hour daily.

(2) The time of overpopulation for the purpose of serving lunch is designated on the facility’s schedule

or daily activities.

(3) The number of children present in the space does not exceed twice the measured capacity of the space.

(c) The Department's previous procedure and direction for licensing staff dictates that a facility with a space dedicated exclusively to serving meals and snacks is not measured for a capacity of children, but is inspected for other requirements that impact on the health and safety of children. The policy presented in this section does not alter the Department's previous procedure and direction.

(1) The minimum outdoor or indoor play space required per infant is 40 square feet.

(2) The minimum outdoor or indoor play space required per young or older toddler is 50 square feet.
